

2011 Maine Chapter Awards

Presented in, Maine on June 7th, 2011

Award for Innovative Uses of Construction Materials

Presented to

The University of Maine Advanced Structures and Composites Center

This award recognizes the research and development activities of the Faculty, Staff and Students at the Advanced Structures and Composites Center using composites technology combined with traditional Construction Materials resulting in such successful prototype projects such as, "Bridge-in-a-Backpack", Blast Resistant Structures, and FRP Glulam Bridges and those to be forthcoming from the newly completed Offshore Wind Laboratory. The MECSI is pleased to recognize these accomplishments and present this award on the 7th day of June 2011.

Award for Design Excellence

Presented to

WBRC Architects - Engineers

This award recognizes the accomplishments of WBRC Architects – Engineers in designing a high tech research facility with the capabilities necessary to meet the users known needs to support current research and the adaptability to meet future needs for ongoing research at the newly completed University of Maine Offshore Wind Laboratory. The MECSI is pleased to recognize these accomplishments and present this award on the 7th day of June 2011.
